ANNUAL ART EXHIBITION

IT'S MY WORLD

"MAKE AN EMOTIONAL CONNECTION...THROUGH THE POWER OF ART"

The natural world has been a source of inspiration for artists since time immemorial. In recent years, however, as wildfires ignite across the globe, ocean levels rise, and entire ecosystems collapse, artists have been faced with the ever-increasing and inescapable effects of our climate crisis. Art can be a beacon of hope, lighting the way and compelling us to act and guide us away from our narrow, human-centric view of our planet.

**THE WESTMINSTER SCHOOL, DUBAI,
embarked on an effort to
"HEAL AND MOVE ON
TOWARDS A CONSCIOUS PLANET"**

by creating visuals related to climate change and its effects on the various species and the environment. A sustained plan put into action from the beginning of the year by integrating it into the curriculum across the year groups, resulted in a visual extravaganza depicting climate change in depth using recycled materials as their choice of media.

The first environmental superheroes did everything to protect our land; their legacy is passed on, with the responsibility in our hands. After all, with great power, comes great responsibility.

WE ARE NOW A CSM SCHOOL!!

We are happy to announce that “The Westminster School, Dubai” is a CSM School (2021-2023) and has demonstrated its commitment to taking a whole-community approach to preparing its students to think critically and use technology responsibly to learn, create, and participate while preparing them for the perils that exist in the online realm, such as plagiarism, loss of privacy, and cyberbullying. With the right support, kids can take ownership of their digital lives, engage with real issues, and change their communities for the better. The recognition acknowledges our school's commitment to creating a culture of digital citizenship.
