Youth Vision, Green Solution 2.O – A Sustainable Collaboration Program

The Westminster School, Dubai

In continuation of the 'Youth Vision Green Solution 2.O', a sustainable collaboration program, the event witnessed its second interactive session on 22nd June, 2022. This session was a check point for all the participating teams before they showcase their innovative and sustainable solutions on 30th June, 2022.

It was intriguing to listen to the various ideas proposed by the teams. With only a few more days left, the competitive spirit among the teams was apparent and everyone is definitely anticipating amazing presentations on the final day of the event.

Guidelines specific to the collaborative program
1) Each and every meeting among the participants must be done under the supervision of the teacher mentors.
2) Each participant must contribute effectively during the brainstorming sessions to formulate the proposed solution.
3) The solution proposed must be presented on the day of the Main Event (30th June) in the form of a working model/ PowerPoint presentation/ Prezi/ Canva/ Video.
4) Each team must have a student presenter to present their proposed solution to the panelists on 30th June.
5) Student mentors and each team should be prepared to defend their solution as the panelists would be shooting questions to check the feasibility and application of the solution.
